

Verification

In a verification audit, the organisation

A24 Films LLC

at [REDACTED] has demonstrated that the Product Carbon Footprint was determined in accordance with the requirements of the

ISO 14067

Issue February 2019

Product name:	motion picture "MOTHER MARY"
Declared/functional unit:	one minute of screening time of the motion picture
Greenhouse gas emissions (PCF):	[REDACTED] tonnes of CO _{2e}
Period of data collection:	01/01/2023 until 27/02/2025
Accounting approach:	cradle-to-gate
Materiality:	1 %
Assurance:	reasonable assurance

Balanced life stages:

Pre-production, upstream transport, production (incl. post-production)

The information required for the audit was provided clearly and with the required accuracy in the CFP study "greenhouse gas report, Project: MOTHER MARY" Version V2 dated 27 February 2025.

Based on the processes and procedures performed, it can be confirmed that the statement on greenhouse gas emissions contains the relevant greenhouse gas-related data and information and complies with the normative requirements for the quantitative determination, monitoring and reporting of greenhouse gases, relevant national standards or procedures.

The verification was carried out in accordance with the requirements of ISO 14064-3:2020-05.

The verification is based on the test report with the no. C-25-26082.

Berlin, 17/03/2025
