## WHO WE ARE

George Street Playhouse has earned a well-deserved reputation for producing outstanding sets. From home interiors and exteriors to forests, golf courses and even a life-sized snow globe, our patrons are continuously impressed by our ability to transform our stage.

All of our sets are constructed by a professional staff of union carpenters, painters and electricians in our off-site 16,000 square foot scene shop. We are fully equipped with the state-of-the-art tools needed to construct a project of any size. We proudly offer Broadway-caliber work at affordable prices.

Our unique blend of creative designers, experienced artisans and seasoned project managers ensures that every detail of your project will exceed your expectations. We develop unique solutions to fit any budget while delivering maximum impact.

Don't stress. Let us do the work. We have the professionals and supplies to handle your project.

“The GSP shop has had to solve design challenges that have included detailed fabrication, scenic automation and projection technology integration...As one of the few shops that deals regularly with challenges of non-profit budgets, they know how to deliver exceptional quality with limited resources. I always feel like I am getting exceptional bang for my budget buck.”

James Youmans, Set Designer
