*“. . .Galactic Armory, who has created not one but two life-sized statues of the iconic duo that is the Master Chief and the Arbiter.” - Halo Studios*

## War Gaming Props - Trench Crusade

Series of costume and set props made for the critically acclaimed war game Trench Crusade.

Uses a variety of fabrication techniques, such as FDM 3D printing, mold making, slush casting, large scale SLA 3D printing, and woodworking.

Built for international travel and convention environments.

## Lancer - Gears of War

Motorised prop showcasing practical effects in a hero grade replica.

Example of collaboration between 3D modelling and engineering teams to deliver a functional Lancer chainsaw gun.

Multiple mixed media applications in one project. FDM and SLA printing, electronics, and laser-cut metal.

## Z6 Rotary Cannon - Star Wars

Extensively motorised large-scale hero prop.

Features integrated lighting, motion, & SFX. Advanced lighting/sound combined package to match firing speed and rotation.

Lightweight and durable for long filming sessions.

## Gok-Do - Kpop Demon Hunters

Extensively designed hero prop, bringing an animated piece to a real world environment.

Features extensive advance LED wiring, in-house fabricated thermoformed transparent PETG blades, and custom designed lithium battery cell.

Bluetooth integrated control system for lighting and effects.

Painted using automotive grade materials, tools, and techniques.

## Artillery Witch - Trench Crusade

1:1 scale statue of Trench Crusade's Artillery Witch character.

Custom built 11.5ft tall frame.

Designed for disassembly and international transport.

Mixed media application throughout the statute, including 5-axis foam cutting, metal fabrication, SLA/FDM printing.

Custom soft goods and hand carved scenery foam for remaining components.
