

# OUR HISTORY

Bryan Electric was born in 1980 out of the vision of Tim Bryan, Sr. who wanted to create an electrical contracting company that would be different: high quality, fair prices, on-time and on-budget. He already had lots of experience as an apprentice and journeyman for North American Phillips Lighting and even as a foreman for Henry J. Lucas Electric Company—and Tim knew the difference between simply putting in time and making a difference.
