

George Koutsouradis
Lead Sales Manager

Specializing in the ever-growing EV industry, George is an expert in Electric Vehicles, Charging Stations (EVSE), and best-practices for EV Charging Station implementations. George is constantly staying in the loop with the policies, incentives, rebates and more centered around EVs and the EV Charging Station markets. With his keen attention to detail and vast knowledge, customers have a better sense of confidence that their EV project will be completed with the best quality solutions.

Tim Bryan Sr. Vice President

Founding the company in 1980, Tim Bryan Sr. has worked hard to see his dream become a reality beyond expectations. Tim started the company with just himself and a truck. Over time he turned it into a family business when his wife and son joined to grow it further. As the company grew, Tim created a strong foundation for the company to provide solutions needed in the market. Since passing the reins to his son, Tim Jr. in 2021, Tim is focused more on the operational “design-build” aspect of company projects. As the company’s founder, and Vice President, the wisdom he gained from 40 years of experience makes his presence and advice very valuable assets.

Margie Gervasio Office Manager

Margie joined the company in 2017 to help organize the day-to-day business of the office. With her expert attention to detail, the company is able to stay organized, on track, and on time. Margie’s greatest value to the company comes from her comprehension of requirements from RFPs, ensuring all our licenses, insurances, and qualifications for bids are current and readily available.

Nick Owens *Safety Officer*

Nick is a detail-oriented Operations Coordinator with a proven track record of streamlining processes, enhancing efficiency, and ensuring seamless daily operations. Since joining the company in 2022, Nick offers expertise in logistics, resource management, and cross-functional collaboration. Nick thrives in dynamic environments that demand strategic planning and proactive problem-solving. Nick has successfully managed scheduling, budgeting, and vendor relationships, contributing to organizational success and team cohesion. Known for excellent communication skills and a strong ability to multitask, Nick consistently delivers results that align with the company's goals and values.

Chris Griffith *Estimator/Project Manager*

With 26 years of experience in the electrical industry, Chris Griffith is a seasoned IBEW local 269 electrician, estimator, and project manager known for delivering high-quality results across diversified projects. From commercial installations to complex industrial systems, he has developed a deep understanding of electrical systems, project planning, and cost management.

Throughout his career, Christian has expertly led projects from inception to completion, ensuring safety, compliance, and efficiency at every stage. He excels in estimating project costs with precision, managing budgets, and coordinating teams to achieve on-time, on-budget delivery. A proactive problem-solver and effective communicator, Chris builds strong relationships with clients, contractors, and stakeholders, consistently exceeding expectations.

Driven by passion for excellence and a commitment to safety, Chris stays current with industry advancements and best practices. Whether managing large-scale industrial projects or small

Bill Wojcik *Estimator/Project Manager*

With over a decade of membership in IBEW Local 269, Bill brings extensive expertise in electrical construction to Bryan Electric. Since joining the company in 2014, he has played a key role in fieldwork and, as of 2023, has transitioned to focus on project management and estimating. Bill is continually growing and learning in these areas, demonstrating dedication and adaptability that make him a valued member of the team and a reliable resource for our clients.

WHAT PEOPLE ARE SAYING

Our County is building a network of EV charging stations to prepare for the future. Working with Bryan Electric has been a pleasurable experience. They are professional, efficient, and experienced, which helps our County accomplish its goals.

- Kenneth A. Simpson, Passaic County Supervisor of Roads

Bryan Electric installed three dual-port EV Charging Stations at the Town Center. We couldn't be more satisfied with their professionalism. They handled everything from drawings through completion and came in on time and on budget. I wish all our contractors were as efficient as Bryan Electric!

- Perry Maye, Borough Administrator Lincoln Park Borough

Bryan Electric installed 4 Dual-Port EV Charging Stations for us at our Park and Ride locations as well as the municipal center. They're experts! Thanks to them, the projects were done when and how we needed them.

- Kasey Lennin, Old Bridge Director of Public Works

Bryan Electric was a pleasure to work with on the procurement and installation of the 2 EV Charging Stations at our community center. They handled everything with our permitting department and installed both units in only a day and a half. Capital projects are typically challenging for a municipality but our EV Charging Station project could not have gone more smoothly thanks to the team at Bryan Electric.

- Emma Von Thun, MPA, Assistant to the Borough of Highland Park Administrator/ Project Manager
