Sound Mixer & Re-recording Artist

Award-winning media professional and with nearly a decade of experience as an audio engineer and video editor. Mixes and manages sound for broadcast, film and digital platforms.

WORK EXPERIENCE

Production Sound Mixer

Risible Films • North New Jersey • 08/2021 - Present

- Performs location sound services for on-set film/tv/commercial shoots with various clients, adapting to project changes and needs.
- Collaborates with marketing agencies for production shoots, capturing sound as it relates to advertising and creative branding.
- Captures sound for short and feature-length films including: Marijuana Minutes, Left Alone Rhapsody and numerous short films.
- Manages post-production sound for film and television using Pro Tools. Applies re-recording mixing and sound editing techniques for optimal audio playback.

Production Sound Mixer • Part-time

Tag • Warren, NJ • 08/2023 - Present

- Captures sound during on-set productions, working brands such as: Advil, Flonaise, Preparation H, and Nexium.
- Troubleshoots issues related to sound technology, including Sound Devices and Sennheiser products.
- Re-recording mixer for ProNamel and Preparation H commercial productions.

Digital Media Support Engineer • Full-time

The Walt Disney Company • New York, NY • 06/2022 - 05/2024

- Offered media support and problem-solving strategies to editors and graphics artists throughout the production process.
- Technical troubleshooting of media technology including Avid, Adobe Creative Cloud, Vizrt, Ross and Vantage products.

Audio Engineer & Video Editor

The WNET Group • Newark, NJ • 12/2019 - 07/2022

- Managed audio mix for live newscast using SSL audio console as A1. Stepped in as A2 audio assistant for various productions.
- Created video for daily newscast on deadline using Adobe Creative Cloud. Improved workflows by transcoding and syncing media files.
- Location sound mixer on award-winning "21" documentary series for PBS.
