WORK EXPERIENCE

Video Editor and Master Control Operator

News 12 | Edison, NJ

2023 – Present

- Edit video and audio for the morning and noon broadcasts while ensuring high-quality broadcasting across two sister stations.
- Manage live feeds by routing up to four field reporters and conducting audio checks for the studio director to ensure smooth on-air production.
- Trained five new hires in ENPS, Adobe Premiere, and master control operations, emphasizing efficiency, accuracy, and the use of hotkeys for precise editing.
- Update and monitor the master control list for live and taped programming to ensure accuracy and reflect the latest broadcasts.

Freelance Video Editor & Producer

Various Clients | New Jersey

since 2020

- Edited and produced promotional, educational, and broadcast content for various clients across digital and television platforms.
- Created engaging social media content, ensuring optimization for different platforms and aspect ratios.
- Managed final quality control checks and implemented revisions to meet client expectations and production standards.
