

Dear Members of the New Jersey Motion Picture and Television Commission,

I am writing to introduce Shedhead Vintage, a curated vintage clothing store based in Asbury Park, New Jersey, and to offer our services as a resource for wardrobe stylists and costume designers working on film and television productions throughout the region.

Our shop specializes in authentic vintage garments and accessories spanning several decades, offering one-of-a-kind pieces ideal for building character-accurate wardrobes. From timeless classics to bold, era-specific statements, our inventory is carefully selected to meet the diverse needs of creative costume design.

We are proud to have supplied wardrobe pieces for major productions and artists, including the film Mean Girls 2, and musical acts such as Mayday Parade, Never Ending Fall, and Pollyanna. Whether it's a period piece, a contemporary shoot needing standout style, or a music video with a unique visual concept, our collection provides a rich and versatile foundation for any project.

We are enthusiastic about the opportunity to collaborate more closely with New Jersey's growing production community. Our team understands the fast-paced demands of the industry and is committed to supporting productions with personalized service, flexible rentals, and a deep understanding of storytelling through clothing.

I would welcome the opportunity to connect with costume departments and stylists seeking high-quality vintage apparel and to discuss how Shedhead Vintage can be a valuable asset to your upcoming projects.

Thank you for your time and consideration. Please feel free to contact me directly at 732-947-9401 or contact@shedheadvintage.com to schedule a visit or request additional information.

Warm regards,

Hallie Endresen

Co-Owner
