

CHARGEHIVES

POWER THAT SWARMS TO YOU

HiveLite

Whether you're powering a field operation, a mobile clinic, or your home during a blackout HiveLite delivers.

HiveLite is a compact, mobile energy storage solution engineered for light-duty backup and emergency use. With a robust 140 kWh capacity and advanced liquid cooling system, HiveLite delivers reliable, efficient power wherever and whenever it's needed. Whether you're facing an unexpected outage, working off-grid, or powering temporary operations, HiveLite ensures uninterrupted electricity in a portable form. Its durable design, quiet operation, and easy deployment make it the ideal choice for critical applications in both urban and remote environments.

KEY FEATURES

140 kWh Capacity

Run essential systems for days

Advanced Liquid Cooling

Efficient thermal management

Mobile & Compact

Deploy anywhere with ease

Emergency Ready

Instant backup during outages

Ideal For
Emergency & disaster relief
Mobile medical units
Off-grid cabins or remote work sites
Home or light-duty industrial backup
Outdoor events or temporary setups

Energy Capacity	~139.8 kWh
Rated Voltage	832 V (260S1P)
Modules Used	3 x HiveMod-LEP
System Layout	1 x 3 vertical stack
Cooling	Liquid cooling
Operating Temperature	-30°C ~ 60°C
Relative Humidity	0% RH to 90% RH, Non-condensing
Noise Level	<75 dB
Communication Interface	R\$485, CAN, LAN
Communication Protocol	ModBusTCP/RTU, CAN
Protection Level	P54 /IP55
nan	~140 kWh
